

Lab Technician with Affinity to QMS (f/m/d)

(Minimum 20 hours/week, preferred 30-40 hours/week)

Are you looking for a role where you can use your technical knowledge as well as your quality management knowledge to actively contribute to the further development of our products? We are a small but highly experienced Life Science company located near Vienna which brings new innovative cancer tests for research and routine diagnostics onto the Life Science market. We are currently in the state of expanding our team and are looking for a dedicated and highly motivated Lab Technician with affinity to QMS for our new laboratory.

Your Responsibilities

- Working with biological materials
- Perform molecular tests including, e.g., nucleic acid isolation, PCR, RT-qPCR, immunofluorescence staining, image analysis, electrophoresis and cell culture
- Assist in R&D projects focusing on test optimization
- Coordinate and evaluate batch release testing and stability studies
- Apply safe and GLP environment
- Follow and comprehend references, manuals and guide-related work
- Maintain laboratory documentation and provide highly accurate records of all work processes
- Coordinate maintaining and ordering inventory
- Perform administration work in Quality Management System (ISO9001, ISO13485)
- Generate and distribute relevant quality documents (e.g. work instructions, SOP)
- Apply problem-solving and critical thinking skills

Your Qualifications

- Completed training (BSC of Science in Health Studies, Chemical-technical assistant, or equivalent)
- Experience in a molecular-biological laboratory is appreciated
- Very good knowledge of spoken and written German
- Good knowledge of written English
- Precise and structured way of working
- Communication and team-building strength
- Proficiency in Microsoft Office, e.g., Word, Excel, PowerPoint
- High engagement
- Professional, friendly behaviour

Your Benefits

We are a small rapidly expanding company in the process of establishing our operations and processes in the area of biomedical research and diagnostics. As our Lab Technician you will closely

cooperate with the R&D and Quality Management and thus have a great opportunity of actively participating in shaping our common venture.

The minimum salary amounts to € 1.100,- gross per month for a 20 hours position. However, we offer a market-oriented excess payment in line with your qualification, experience and individual competencies.

Please send your cover letter and CV to m.rosenauer@oncolab.at.
